Literacy Alive !

21 NOVEMBER 2004

NEWSLETTER ISSUE NO. 1

A MESSAGE FROM THE EXECUTIVE DIRECTOR

Literate people live in a world of opportunity, they have choices and are able to expand.

Illiterate people live in a limited world.

Which world do you want to live in?

However, "The process of learning is not just piling data on top of more data. It is one of obtaining new understandings and better ways to do things."
- L. Ron Hubbard

Knowledge is the key to life. Without knowledge we are all lost.

In our society today it appears that not only is it difficult to retain knowledge once learned, but even more difficult to apply that knowledge. One must learn how to do this.

What is the purpose of study anyway?

Do you study a subject just to pass a test?

OR

Do you study to gain knowledge so you can apply it?

Our study methodology teaches you the latter and opens the door to success in life.

"As long as children and young men and women find pleasure in study, they will continue studying throughout their lives and upon that depends their happiness."

- L. Ron Hubbard.

My team is ready to deliver. See you in the Courseroom.

Alison Tarrant
Executive Director

Brochures outlining our Courses and products are included with this newsletter. The courses and tutoring services are delivered on our premises and correspondence courses are also available. Please contact our Centre for further information

(08) 9277 2306 or

(08) 9277 7074

WE HAVE HAD MANY SUCCESSES.....

We officially opened our doors on the 13th of June 2004 for the purpose of servicing you and your families with our learning methodologies. We have had many successes so far... here are just some of them -

"This course has been fantastic for me. It has taught me so much in the way of getting your communication across successfully and handling of people who throw things/obstacles in your way. Effective communication is essential in everyone's life. If every person knew and applied this course this place would just be wonderful!! I'll be applying and have applied **everything** I have learned in this course to better myself and my self confidence. I've

also told several people about this course with interest being generated. I had a fantastic time learning!!!" (TC)

"I had a wonderful day studying today simply because I had many opportunities to apply the technology I learnt through my course.

It has actually made me feel really rewarded when a student has a problem and I, in my own little way, managed to give a hand. It helps when the student is a very willing participant.

I met my target which I set and when I managed it, it made me feel great.

Mainly, today, I have participated in assisting a couple of students in getting through their problem spots. Also I realised that communication is crucial in getting to investigate where the problem could be." (JKS)

"This course was fun and I learnt a lot of things. I learnt how to do a clay demonstration and the steps to clear a misunderstood word. It was fun."
(CT - 9 years old)

Please complete the **"YES" form** to enable us to update our database with your current details. We would love to have you onboard the Applied Scholastics Western Australia literacy wagon.

SUCCESS WITH WORKSHOPS.....

Our very first Finance Workshop was a roaring success. It was not your typical finance workshop and was a totally different approach to attacking financial difficulties.

Misunderstanding on money can be remedied by using this study methodology. Once you understand something, then you can have it and control it more readily.

The many success stories from the Finance workshop speak for themselves.

"There is always a difference in what one knows and what one will apply or use of what they know. And this has been one of those times. I validated myself and was warmly validated by Brendan by his

workshop and want to continue to undo my misunderstood words to do with finances/money as this is the way to prosperity.

I can see this as something all can benefit from, if only more is done out in the community. So, I'm heading there, its now going on full steam ahead now."
(DC)

"Fantastic workshop, excellent gradient, invaluable technology delivered by Brendan with total affinity, reality and communication.

My biggest win was getting the concept that money is simply a medium for exchange – a "statistic" of one's own production and exchange, and obviously the basic idea of it also."
(PC)

"All my life I have had the ability to attract a good income. My problem has been how to hold some of this as profit and for future investment.

I now have an understanding that my problems stem from not understanding words in the fields that I am interested in and investing in.

Now I know how to make these work and my path has just begun in understanding the financial terminology."
(SG)

"This was fantastic. It gave me the certainty that I can have control over the area of finance as long as I can play the game by understanding it by clearing misunderstood words and using Study Technology."
(MC)

APPLIED SCHOLASTICS WESTERN AUSTRALIA OUR DYNAMIC TEAM ARE HERE TO HELP YOU

(From left) Alison Tarrant - Executive Director, Paula McLennan - Organization Executive Secretary, Juli Kamari-Stanimirovic - Deputy Executive Director, Tina Ramirez - Tutor, Tanya Chambers - Instructor/Tutor, Virginia Gard - Instructor/Tutor, Anita Chopping - Tutor
