NEWSLETTER ISSUE NO. 6

A MESSAGE FROM THE EXECUTIVE DIRECTOR

The services we provide at our organisation are not just about helping an individual with learning difficulties, but rather, providing that student with a learning tool called "Study Technology" so he is able to become a life long independent learner and solve his own learning problems.

You may be a parent with a child experiencing difficulty with reading and spelling, a high school student finding it hard to keep up, a university student who can't recall data come exam time or an adult experiencing difficulty in the workplace. Whoever you are – we are here to help! We provide Courses and Phonics Tutoring for both children and adults that impart our unique methodology.

Because our "Phonics Programme" and "Study Technology Courses" are getting wonderful results

with our students, we have been promoting nationwide with the purpose of setting up more Centres just like ours so we are able to help more individuals with learning difficulties over a much broader scale. An Applied Scholastics Centre in Brisbane, Queensland has now opened and a staff member from that organisation is attending our Perth Centre for further training in the April school holidays.

We also need additional Centres and independent Tutors operating in Perth – so if you are interested in joining our team please call me on 9277 2306 for further details.

Alison Tarrant
Executive Director

Website

In the last few months especially, we've had many customers and some Government officials ask us, "Do you have a website?" Due to public demand we have been working on a website that is user friendly and contains all the information relating to our organisation and the services we provide.

We will let you know our website address as soon as it's completed.

We are opening full-time over the school holidays

School holidays are our busiest time. Our Courseroom will be open from the 6th April to the 22nd April, 2007 the following times:

Monday to Saturday (9am to 9pm)

Sunday (9am to 12pm)

PARENTS! We invite you to take advantage of these opening times over the school holidays to bring your child/children in for Phonics Tutoring or to study one of our "Learning" Courses.

Charity Status and Deductible Gift Recipient Status

Applied Scholastics Western Australia is a non-profit public benefit organisation. Just last month we obtained full Charity Status with the Australian Taxation Office. This will enable us to obtain funding to implement literacy programmes into the community as we have discovered that a lot of parents would love to get tutoring for their children but do not have the wherewithal to do so. We are also applying for Deductible Gift Recipient Status with the Australian Taxation Office so individuals or organisations that donate to our worthwhile purpose will be able to claim this as a tax deduction. We'll keep you informed of the outcome.

Membership

We have enclosed a Membership form with our Newsletter for your perusal. If you support what we are achieving, we would like to welcome you as a member to contribute to our expansion. Please complete the slip at the bottom of the form and return it to our office or, alternatively, become a member over the phone as we have EFTPOS facilities.

Please complete the **“YES” form** to enable us to update our database with your current details. We would love to have you on board the Applied Scholastics Western Australia literacy wagon.

Become a Literacy Expert

Accompanying this Newsletter is a flyer entitled, “Become a Literacy Expert and Change Someone’s Life Forever.” If you are interested in becoming a Phonics Tutor please read our flyer to find out more information. We have included many **Success Stories** both from students who have studied the Course who are now qualified tutors, and from students who have received the Phonics tutoring from our qualified tutors.

This is a golden opportunity to study “The Australian Teaching Modern Phonics Course” intensively.

HERE ARE SOME PHONICS SUCCESS STORIES....

“This course was tough! I learned so much about the English language and how to teach others to read and write that I was astounded! I loved the tools and procedures contained in the checksheet and the gradient of learning on the Course This Course is a must for teachers, educators, tutors and even parents. I am very proud to have completed it and look forward to unraveling the English language for many students to come.” - JW

“The things I have learned with my tutoring are amazing. I didn’t know the sounds, I didn’t know a lot of things; but I do now and I can spell. It’s amazing material. I can read and I can write to someone without asking how to spell something. It’s great. I can help other people too. It’s fantastic.” - KS

“I learned a lot about the letters of the alphabet and how when phonics properly learned and taught can give a student the foundation for reading, thus give them the ability to understand anything. This opens the door to life.” - AC
