## Course Success

"I am grateful to have finished the course *Learning How to Learn* even though it has been a struggle for me. But in the end the hard work paid off. To me, studying is as easy as pie now because I have learned the steps for studying and I now have this knowledge for the rest of my life.

I insist that everyone do this programme because at first I thought this programme wasn't going to help me, but during and after this course I noticed a change in my studies, I enjoy it! My attitude has become positive towards learning new things and learning new things is now a pleasure! My thanks to Alison for all her help and patience, especially when I got stubborn, but Alison never gave up. God bless you! My thanks to Pauline for taking me here almost every Saturday, even though it was out of her way. I love you. Thank you!"
